

BUFFALO HEAVY DUTY BARRIER

Buffalo Heavy Duty Barrier is a robust flood defence system designed to last a lifetime in harsh environments. It is the ideal solution for wide apertures and demountable wall defence.

- Heavy duty steel and aluminium construction, for lifetime protection against flooding
- Designed for commercial and domestic use
- Create a flood wall to any length with the help of demountable central posts
- Replaceable seals and maintenance plans available
- Compounds can be created around valuable equipment with access points
- Bespoke plates and brackets can be made to fit the individual case
- Easy sterilisation after use
- Simple deconstruction and minimal storage
- Powder coating to any RAL colour - match your barrier to local aesthetics
- Worldwide shipping available
- **Factory tested to BS PAS 1188**
